Capacity Building & Training

GFB delivers targeted training and technical workshops to strengthen institutional capacity across key areas of financial governance.

Illicit financial flow detection
Advanced methodologies for identifying untracked financial movements and trade misinvoicing at a national scale.

Informal economy analysis
Systems to estimate the size, structure, and impact of informal sectors on national revenue and economic policy.

Informal payment system mapping
Mapping agent-based payment networks and trade-linked informal settlements for greater oversight.

Financial monitoring systems (FLMIP)
Technical training on implementing and managing National Financial Leakage Monitoring System dashboards.

Trade-payment verification (BLTVM)
Implementation protocols for linking bank-processed payments to trade documentation through unique codes.

Request Custom Workshop
Tailored technical training for your specific institutional needs.
